

FAMILY OWNED AND OPERATED WITH THIRD GENERATION EXPERIENCE

THE THOMAS FAMILY HAS BEEN PROTECTING HEALTH AND PROPERTIES SINCE 1949

1949

Jim Thomas starts out in pest management in 1949 with the mission to provide high quality service experiences with guaranteed customer satisfaction.

1956

Jim Thomas owned Mid-Hudson Pest Control in Poughkeepsie, NY from 1956 to 1973.

1996

After earning a degree in Natural Resource and Conservation and retiring from NYDEC, Craig Thomas created Craig Thomas Pest Control serving the Hudson Valley and grew to one of the top 100 pest management companies in the US.

2010

With the acquisition of Hometown Pest Control in December of 2010, Bill Clark and Sarah Thomas-Clark created Thomas Pest Services serving the Capital and Adirondack regions.

- ▶ Over 10 years of pest management experience
- ▶ Holds various pest control certifications such as Structural, Rodent and Termite Control, Food Processing, and Public Health
- ▶ Educated as an Associated Certified Entomologist and among only 50 other ACE's in the state of New York

The Thomas Promise! We CARE

- ▶ Grew up working alongside her father at Craig Thomas Pest Control and managed the marketing division after graduating college
- ▶ 2009 recipient of the Professional Women in Pest Management Scholarship, an affiliate group of the National Pest Management
- ▶ Operates Thomas Pest Services with her husband, Bill

PEST SERVICES

Our goal is to protect your health, home, business and property from pests. We take pride in our employees and work, and have a strong commitment to quality service. We are QualityPro certified which is the mark of excellence in Pest Management. We use the most sophisticated techniques, but we're still a **family-owned company** with old-fashioned values.

BED BUG SERVICES CONTROL

Bed bugs pose a significant risk and challenge to homeowners and businesses, but with our specialized and custom bed bug solutions you can rest easy. Our bed bug professionals are trained on all facets of bed bugs from **heat remediation**, bed bug prevention and education and are ready to be of service to you! Simply contact us today to learn more about our flexible bed bug control solutions.

RESIDENTIAL PEST CONTROL

You can count on the team at Thomas Pest Services to protect your family, property and your home from insects and rodents. With third generation experience, we not only know the pests in our region, we have the tools and technology to eliminate and prevent infestations. We offer a range of services that allows homeowners to select the level of coverage that works best for their home and budget.

TERMITE CONTROL

Termite problems can be stressful, costly and time consuming when it comes to repairing the damage they inflict on homes and businesses. From the foundation to the furniture, termites are a wood destroying insect and significant threat. At Thomas Pest Services, we realize how destructive these insects can be, which is why we offer effective termite control for both homes and businesses.

COMMERCIAL PEST CONTROL

In order for businesses and organizations to operate effectively it is imperative that they have a zero pest policy. Insects, rodents and nuisance birds are often a problem in commercial environments threatening the health and safety of people, compromising quality by damaging product, inflicting damage to the facility and causing undue harm to a company's brand. Thomas Pest Services provides commercial pest control services that are highly effective in eliminating and preventing pest activity.

WILDLIFE CONTROL

Thomas Pest Services offers full service wildlife control solutions using the most humane animal removal and environmentally responsible techniques available. Wildlife in your home or business can cause significant damage to the structure and the belongings within and also threaten the health and safety of people. Trust Thomas Pest Services to trap and exclude **raccoons, skunks, squirrels** and **bats** as well as other wildlife that are common to our region.
