4'X16'	\$628.00	\$921.00	\$1,015.00
Walkway Specifics			
Walkways are used to make the transition from shore to a floating dock section. They are constructed without floatation. However, as an option, an extra billet box can be added to assist in the stability and weight distribution of the walkway to insure a level entrance to the dock.			
OPTIONS & ACCESSORIES			Price

Small Cleats (6")			\$11.59
Heavy Duty Cleats (8")			\$14.99

We have a full line of docks available to meet a variety of lake conditions using a host of lumber products and non corrosive connecting hardware.

We do require a deposit of 30% to begin construction of your dock system. Docks are constructed in order of deposit received. All dock prices include delivery to a paved launch on the Great Sacandaga Lake. Alternate delivery locations will be reviewed and assessed at time of delivery requirement.

Above is a listing of typical dock and ramp sizes indicating their prices, along with some of the more common accessories and features. Keep in mind that we do manufacture a variety of custom docks and accessories. Feel free to arrange for a planning session to assist you and your family in deciding which dock system is most suited to your needs and budget. Soon after that, you will be enjoying your Brownell Lumber Co. dock and the summer season.
