Walkway Specifics

Walkways are used to make the transition from shore to a floating dock section. They are constructed without floatation. However, as an option, a billet box can be added to assist in the stability and weight distribution of the walkway to insure a level entrance to the dock.

2025 Dock Information

Brownell Lumber & Hardware has a full line of docks available to meet a variety of lake conditions using a host of products for many years of enjoyment. All of our docks are built using Pressure Treated lumber, DOW Billets and non corrosive hardware. We do offer some other options in decking and floatation for your consideration.

We have provided a listing of typical dock and walkway sizes indicating their price, along with some of the more common accessories & features. Keep in mind that we do manufacture a variety of custom docks and accessories. Feel free to arrange a planning session to assist you and your family in deciding which dock system is most suited to your needs and budget. Soon after that you will be enjoying your Brownell Lumber & Hardware dock and the summer season for many years to come.

We do require a deposit of 30% to begin construction of your dock system. Docks can be picked up or delivered to a paved launch. Due to regulations we can only deliver Monday- Friday to paved launches, unless arrangements have been made prior. Customers must be present at delivery location. Towing/ installation of dock is owners responsibility. Delivery will be assessed at time of order placement, additional fees may apply.

As an added incentive we offer a 10% discount off the current years price on all dock orders placed between September 1st and March 30th for delivery in the Spring.

Any questions- feel free call 518-863-4337 or email us at brownelllh@yahoo.com and one of our sales associates will be happy to help!
